Your mummy, she don't love you  
'Cos you remind her of your dad;  
Your teachers, they don't love you -  
They get paid to call you bad;  
The government, it don't love you  
'Less its facing re-election;  
A pop star, he don't love you  
'Less you lick his gnarled erection.

Chorus:!U-O-Y Sevol Natas

The gun lobby, it says it loves you -  
But they say that guns don't kill;  
The Christians say they love you,  
But only 'cause it's the Lord's will;  
The Sadists will say they love you  
Only if you don't want them to;  
The Masochists will say they love you  
If you promise to hate them too.

There's only one person who loves you -  
Break the code and understand:  
Just play all those records backwards  
Of those heavy metal bands.  
Oh, fuck me! fuck me! Lord Jesus,  
The temperature's minus fifty -  
You've never seen vomit so green,  
And your head's done the full 360
