Park the car in a vacant lot
And lay beneath the collapsing stars
Afraid to say what was in my mind
On the waterfront
Blood cells rushing to my brain
Check it out, my acting strange
Can't even look you in the face
This is not like me

And I want you to know
I don't want you to go
I feel untied when I'm with you
And I wanted to say
That I want you to stay
I feel alive just being with you

Like a solarstorm
In the heavenlies
A world war going on in me
And you swallowed the light
Yeah, you swallowed the light
And it drew me to you
Like a solarstorm
Reaching down to me
A civil war in the heavenlies
And I followed the signs
I followed the signs
And it brought me to you

The moon's on fire, lunared seas
Are rival worlds in a sacred hush
Let the love you hold inside
Flow out to me
I'm so tired of my own speech
These frozen words at my command
My heartbeat reaching unfamiliar speeds
This is not like me

And I want you to know
I don't want you to go
I feel untied when I'm with you

And I wanted to say
That I want you to stay
I feel alive just being with you

Like a solarstorm
In the heavenlies
A world war going on in me
And you swallowed the light
Yeah, you swallowed the light
And it drew me to you
Like a solarstorm
Reaching down to me
A civil war in the heavenlies
And I followed the signs
I followed the signs
And it brought me to you

Brought me to you
Brought me to you
Brought me to you
Brought me to you
