I was forgotten, until you called my name.  
Lost in the shadows, until you shined your light my way.  
Now I believe again, in all my dreams again.  
I'm wide eyed and innocent,  
those doubting days are so far away and oh,

\*Chorus\*

I will fall, and you will catch me always,  
time has taught me this.  
I will fly, and you'll be there to guide me,  
straight up to my hearts highest wish.  
I feel you close to me, and I know what love is.

Now there's no mountain too high for me to climb,  
no ocean so wide that I could not reach the other side.  
Now I believe in me, cause you live and breathe in me.  
And nothing can come between, we are one star,  
no night can darken, oh...

\*Chorus\*

I will fall, and you will catch me always,  
time has taught me this.  
I will fly and you'll be there to guide me,  
straight up to my hearts highest wish.  
I feel you close to me, and I know what love is.

It's an unspoken thing, a quiet opening.  
There are no words that go that deep, but I know, I  
know.

\*Chorus

I will fall and you will catch me always,  
time has taught me this.  
I will fly, and you will be there to guide me,  
straight up to my heart's highest wish.  
I feel you close to me and I know what love is.
