It's been so long since I've tried
2 get up and out of my head
Too dark out here
I try not 2 breathe or make a sound
Or move at all
I'm too scared
No hope at all
I'm dying
Everybody says
it's just a phase
But it's been damn long
It's been damn long
What will it take
2 get out again
And see all those millions of faces
Not worrying about what they're thinking
I'm dying
It's ok
Don't cry no more
I'm dying
