It's been so long since I've tried

2 get up and and of my head

Too dark out here

I try not 2 breathe or make a sound

Or move at all

I'm too scared

No hope at all

I'm dying

Everybody says

it's just a phase

But it's been damn long

It's been damn long

What will it take

2 get out again

And see all those millions of faces

Not worrying about what they're thinking

I'm dying

It's ok

Don't cry no more

I'm dying
