Jimmy saw the sun chase away the night

It was a quarter past seven

His body warm like the morninglight

Had to be at school by eleven

He told himself what he had done to him

That's why Jimmy never felt real sad

If only some one could have lend a hand

Things would never turn out so bad

CHORUS

Who knows why black flies just live for one day

Who knows why?

Hey turn around

It's time to wake up and go back to tell the story

Hey turn around

It's time to wake up and go back to tell the story now

Always sat alone in the back of the class

Because no one take him

Today he stood in front of the rest

yeah His hands were shaking

Who could have known what Jimmy thought

Never had a chance to speak his words out loud

The flies were burning in his head

Till Jimmy let them all out

CHORUS

Didn't pay to make fun of him

To late to say I'm sorry

No one would ever make fun of them

You and I all the time

Come with me

Take my hand

I will tell you when you're there

Come with me

Take my hand

I will tell you when

Come with me

Take my hand

I will tell you when you're there

Come with me

Take my hand

I will tell you when you're there

Come with me Hey turn around

Take my hand It's time to wake up

I will tell you when you're there and go back to tell the
story

Come with me Hey turn around

Take my hand It's time to wake

I will tell you when you're there and go back to tell the

story

(Hey turn around

It's time to wake up

and go back to tell the story) 3 times

Hey turn around

It's time to wake up

And go back to tell the story now
