I took a lighter to our photos.
Deleted your account so i wont know
who you are or who you're with,
thinking of you just makes me sick.
What you what you've done,
I can't know...no no

Baby is it that easy
for you to leave me by myself
with my pills stocked in the shelf?
I am taking,
All of my white pills.
Ill make my heart stand still but i wonder
Will you even cry for me?

I stare below I'll let myself fall
You let me go, I hit the waters wall.
You're at the top, I took the fall.
You have everything, I lost it all.
You drowned whats real, I drown in pills.
I sink slow...oh no

Baby is it that easy
for you to leave me by myself
with my pills stocked in the shelf?
I am taking,
All of my white pills.
Ill make my heart stand still but i wonder
Will you even cry for me?
