I seen you walking down the street with another man

Girl you're really shocking

I seen you walking down the street with another hand

Held in your stockings

Boys will be boys and girls will be trouble

And I'm a man of bad habits

I seen you walking down the street with another man

Girl I had to have it

Bad habits

Bad habits

Bad habits

You and I we should meet

Yeah, you and I we should get together

Me and you and I should meet

In the rain and stormy weather

Bad habits

Bad habits

Bad habits

No messing around

Now's the time to start

Boys will be boys and girls will be trouble

And I'm a man of bad habits

I seen you walking down the street with another girl

Man I had to have it

I know it gets into your brain

Sometimes it dribbles and goes in your veins

I tell you this boys is the same

This boy's got bad habits

You and I should meet

You and I we should get together

You and I, you know we should meet

Hey babe, check it out the stormy weather

Bad habits

I got bad habits

I got bad habits
