Brothers here I stand

Spread my wings and take command

The sky he justly planned

The boy become a man

After all this time

I tell myself that I'm

Not just wasting time

Oh you know I'm not that way inclined

Brothers if you hear

Raise your flags and make it clear

There is more to fear

If we wait for another year

After all this time

I tell-a [repeat] myself that I'm

Just passing through time

Oh...

(solo)

After all this time

I tell myself that I'm

Not just wasting time

Oh you know I'm not that way inclined

Brothers fight or fall

It's man for man and one for all

No more can we crawl

Brothers, brothers hear the call

After all this time

I tell myself that I'm

Not just wasting time

Oh you know I'm not that way inclined

Brother brother

Brother brother

Brother fight or fall

It's man for man and one for all

Brother brother

Brother brother

What you want?

We gotta fight for one another
