"Having A Good Time"

Visit "[Having A Good Time](#)" on MotoLyrics.com

Me and my buddies we're going to get drunk

We're going to go out on the town

We'll be checking it out, slipping it in

And stepping out of line

You know everybody likes to get a little crazy

In their own particular way

But my buddies and I we go over the top

And we're going over again today

We'll be having a good time

Passing the by-line

Having a good time

You know it's a rock and roll pastime

It might be typical, topical or maybe tropical

That doesn't mean anything

If you're political, practical

Then it's improbable, that you do anything

But me and my buddies we like to go crazy

We like to go over the hill

Hey, woman will you be there, because my buddies
and I will

Having a good time

Passing the by-line

We'll be having a good time

It's a rock and roll pastime

"Hey, Snowy...play a bit for me

That was Snowy White

And he likes err...it in the night

The next to play

I must say, is Scott Gorham

And away..."

We'll be having a good time

Passing the by-line

Having a good time

It's a rock and roll pastime

Let's play that one more time

Hit me with that drum Brian

Hit me as hard as you can

Oh yes, that's they way I like it

Do it again, do it again, let's do it again

Having a good time

Oh yes I like this

Having a good time

Typical, topical, who cares?

Having a good time

Political, practical, impossible

Having a good time

Don't ask me why Jack?

Having a good time

Ho! Ho! Ho! Ho! Ho!

Having a good time

Having a wild time

Having a good time

I'm slipping on the inside

Having a good time

That's fine having a good time

Having a good time

Drinking Beaujolais

No that doesn't rhyme

Having a good time

I'm talking from the top of my head

Having a good time

To the bottom of your soul
