I Need You (D'Ardis)

-----

Every time I see you

When you're out with someone new

You really break my heart in pieces

With the things you do, yeah

Every time I see you

You're out with someone new

But I love you, you, you

I love you

When I'm six foot underground

My heart it can be found inside of you, you, you

You tell me that you love me

But you always treat me bad

Why you want to make me sad

Treat me bad

You tell me that you love me

But you always treat me bad

Why you want to make me sad

Treat me bad

You say you really love me

And it's all a big mistake

You tell me that you love me

My heart it's going to break

You tell me that you love me

And it's all a big mistake

But I love you, you, you

And I love you

When I'm six foot underground

My heart it can be found inside of you, you, you
