She's quite a mediator

A smoother operator you will never see

Said "See you later"

No one dare disobeyed her over me

She knows music

I know music too, you see

She's got the power

My teen queen, Rosalie

She's got the plastic

Comes from all the cornerstones of the world

She's so fantastic

She's everybody's favorite little record girl

She knows music

I know music too, you see

She's got the power

I got the power, Rosalie

Rosalie

Down on me, Rosalie

Shine on me will you please

Well Chattanooga, Lacooda, Baooga Loosa

You can hear her fine

She makes the choices

Then you'd best be smiling when it's choosing time

She knows music

I know music too, you see

She's got the power

She is a tower, Rosalie
