Pity the fool

It's hard but he broke a rule

And that isn't done

Somehow, someday, Brother will use a gun

Just walking the town

Just painting it sad

It's bringing me down

It's driving me mad

Woman is away from me

We will be strong, We will be strong

I know we have the strength to carry on

We have the strength

I know my rights from wrong

I know you've lost I've won

We will be stronger

We will be strong

And getting stronger every day

Believe me when I say it

There is no other way to convey it

No other way you clown

Your thoughtfulness has brought us down

And that isn't right

That we should walk alone on the streets at night

Just checking the time

Walking that very fine line

The humour is black

The plan is attack

Now woman is away from me

But we will be strong

We will be strong, We will be strong

I know we have the strength to carry on

We have the strength

I know my rights from wrong

I know you've lost I've won

We will be stronger

We will be strong

And getting stronger every day

Believe me when I say it

There is no other way to convey it

Down on your luck

The shock it has struck

The weak ones will die

The questions are why? why?

Does anybody hear?

Does anybody understand?

Let me make it clear

Now's the time to take a stand

Now woman is away from me

But we will make it strong

We will be strong, We will be strong

I know we have the strength to carry on

We have the strength

I know my rights from wrong

I know you've lost I've won

We will be stronger

We will be strong

And getting stronger every day

Believe me when I say it

There is no other way to convey it

We will be strong

We will

We will be strong

We will be

We will be strong

We will

We will be strong

We

We will

We

We will be

We

We will

We will be strong

We will be strong
