"Love Don't Cost a Thing"

Girl i'm blown away by everything you say
I keep taking off everytime you kiss my neck.
My bloodcells turn into butterflies,
shawty above the sky (shawty above the sky)

By the way that you know that your path
(shawty your path) Baby you, baby don't anyone near
Let me get in my bed (get in my bed)
I'm saying, i'm dyin' that:
Love don't cost a thing if you wanna be with me
You don't have to buy me a ring
for you to be down with me
Happend this before, you're a supergirl
Promiss I ain't never gonna let you go
Love don't cost a thing, Love don't cost a thing

Let me *something* you, with that wrip on your style
you so fine, you should handle yourself
you've been bad girl, step into my office
I am a hurricane, hit you like new orleans
Blowing me off, girl i'm far from top.
Knowing that i'll be the light will you sleep in the dark?
Girl I got you like you are my brotherright, now stay
another night
(another night)

By the way that you know that your path
(shawty your path) Baby you, baby don't anyone near
Let me get in my bed (get in my bed)
I'm saying, i'm dyin' that:
Love don't cost a thing if you wanna be with me
You don't have to buy me a ring
for you to be down with me
Happend this before, you're a supergirl
Promiss I ain't never gonna let you go
Love don't cost a thing, Love don't cost a thing

They sayin' that you've been round the block but 've
been playin'.
They've been hating everything on you.
you working your ass off, stay where you've been at

But still they hatin' on you.(you, you) (on you, oh you)

I'm saying, i'm dyin' that:
Love don't cost a thing if you wanna be with me
You don't have to buy me a ring
for you to be down with me
Happend this before, you're a supergirl
Promiss I ain't never gonna let you go
Love don't cost a thing, Love don't cost a thing
