Car door's frozen
I can't get to you
Your window's open
The cold air's pouring through
Your bones are broken
The belt won't let you loose
And i'm left hoping
That you might wake up soon

I just stand and watch as they pull you from another
world
Unraveling twisted plots, oh i wish you were another
girl

And i'll set the world on fire
Cause i could not satisfy her

Empty hallways
You can't get to me
Open doorways
But you're still searching for your keys
And i can't open
The ears for which i sing
So i'll just pass along
And baby you'll start to hear me

You just sit and stare as if i'm from another land
In your comfortable chair, oh i wish i were another man

And i'll set the world on fire
Cause i could not satisfy her

Satisfaction seems to be
The key that turns, the air we breathe
It brings us now so confidently crawling on our knees
So you try to satisfy the hours
But you're ignorance won't fight the fires
And your innocence can't kill desire
So you're not as perfect as you seem to be

I'll set the world on fire

Cause i could not satisfy her
I'll set the world on fire
Cause i could not satisfy her
And i'll take this world by fire
Cause i'll never...
I'll never satisfy
I'll never satisfy
Her...
