"I Should Know"

Visit "[I Should Know](#)" on MotoLyrics.com

Don't be a fool and fall in love
Then say goodbye and just give up
I should know, I broke every rule about love

Don't let your friends say it's OK
He wasn't worth it anyway
I should know, I broke every rule about love

Say I love you when you're mad
Say I need you when you're safe
I should know, I broke every rule about love

Say I love you when you're mad
Say I need you when you're safe
I should know, I broke every rule about love

Don't let your heart lead your mind
I must have heard that a dozen times
I should know, I broke every rule about love
I should know, I broke every rule about love
I should know, I broke every rule about love
