Verse 1: Sheek Louch

Now what you know about me

I got this rap shit down to a tee

Grams to a half, half to a key

If these alone 'gon cause me a G

My flow too deadly baby

No fakin hold the hammer steadily baby

No shakin you still wanted to pop off

Until I come through slow with the top off

You ain't real you just a knock off

Y'all ain't sick that's just a light light cough

Sheek heavy in the hood

Rims spin heavy in the hood dash heavy with wood

Niggaz try get me if they could

But they know the handle is wood and my aim is good

Sheek keeps it real, from the streets to the

motherfuckin yards at jail

(Let's go)

Chorus: Sheek Louch

I don't know what you thinkin but a party ain't a party

unless you drinkin

And, I don't know what's all the drama

But he keep on frontin better call his mama

And, I don't know what you thinkin but a party ain't a

party unless you drinkin

And, I don't know what's all the drama

But he keep on frontin better call his mama, and

Verse 2: Sheek Louch

Nah, I ain't thuggin I'm here to party

And I, I don't party I'm here to thug

I don't know taste this drink I think it's drugged

Then ummm, he keep talkin he will get plugged

Listen, tell shorty I got the hot tub

If she try and wash a little sweat off from the club
And, tell her friends they could come if they want
Cause my niggaz got a line full of whips in the front
