Taco...grande Taco...grande

Yo quiero chimichangas y chile colorado
Yo tengo el dinero para un steak picado
Las flautas y tamale, siempre muy bueno
Y el chile relleno

You see, I just gotta have a tostada, carne asada
That's right, I want the whole enchilada
My only addiction has to do with flour tortilla
I need a quesadilla

I love to stuff my face with tacos al carbon
With my friends or when I'm all alone
Yo tengo mucho hambre y ahora lo quiero
Un burrito ranchero

So give me something spicy and hot now
Break out the menu, what you go, now?
Oh, would you tell the waiter I'd like to have
Sour cream on the side
You better make sure the beans are refried

Taco...grande Taco...grande

Well there's not a taco big enough for a man like me
That's why I order two or three
Let me give you a tip, just try a nacho chip
It's really good with bean dip

I eat uno, dos, tres, quatro burritos
Pretty soon I can't fit in my Speedos
Well, I hope they feed us lots of chicken fajitas
And a pitcher of margaritas

Well the combination plates al come with beans and
rice
The taquitos here are very nice
Now I'm down on my knees, we need some extra

Tomatoes and cheese
And could you make that separate checks, please?

Taco...grande Taco...grande

Well the food is coming I can hardly wait
Now watch your fingers, careful hot plate!
What you think you're doing with my chili con queso?
Well, if you want some, just say so

Oh boy, pico de gallo
They sure don't make it like this in Ohio
No gracias, yo quiero jalapenos, nada mas
You can toss away the hot sauce

Donde estan los nachos? Holy frijole!
You better get me a bowl of guacamole
Y usted, Eugene? Wh's your face turning green?
Don't you like pinto beans?

You want some more cinnamon crispas?
If you don't, hasta la vista
Just take the rest home in a doggie bag if you wanna
You can finish it manana

Well, it's been a pleasure, I can't eat no more
Senor, la cuenta, por favor
If you ain't ever tried real Mexican cooking, well, you
Oughtta
Just don't drink the water

Taco...grande
Taco...grande
Taco...grande
Taco...grande
