They only show you their gums when they smile  
Ain't got a tooth in their headsnow...how vile  
Only can eat things like pudding and applesauce  
They never have to buy toothpicks or dental floss

Hey! Stand up!  
Toothless people...their breath is lethal, wanna tell you  
Hey...come on! Stand up...get on your feet!  
Toothless people...old and feeble, what I say

No more of those pearly whites will they possess  
Their oral hygiene is frightful...a mess  
Lots of 'em suffering from trench mouth and gum  
disease  
At least they don't have to worry 'bout cavities

Hey! Stand up...take out your teeth!  
Toothless people...old and feeble, oh yes

You can brush 'em, you can floss 'em  
They're something you just can't ignore  
If you lose 'em, you're in trouble  
'Cause the tooth fairy won't come no more  
You need something to show your dentist  
The next time he makes you say "ahh..."  
You don't wanna have to wind up  
Eating all of your food through a straw

Like toothless people  
Toothless people...you'd better brush your teeth now  
Hey...toothless, toothless, toothless, toothless people
