"Stay"

Visit "[Stay](#)" on MotoLyrics.com

Boy i wish that it never had to come to this,
it was hard to go another day witout your kiss,
i said some things that i realy didn't mean to say,
and i can't let my baby turn and walk away

Chorus:

So please stay
Don't leave
stay a little while longer
we can work it out
don't leave
stay a little while longer
we can work it out

Please understand that you hurt my feelings too
yes you did
when you said you don't love me like i do you
lets talk about it, then we can go from there
can't let the time pass by cause love's still in the air

Chorus:

So please stay (oooh oh)
don't leave (don't leave me)
stay a little while longer (want you stay)
we can work it out (We can work it out)
(Yea we can)
don't leave (oh baby)
stay a little while longer
we can work it out (we can work it out)

Brige:

Don't leave
(think about our future baby) oh yeah
don't leave
(cause i love you)
don't leave
(Don't leave)
(we can work it out)

Chorus:

stay

Don't leave (don't leave me baby)
stay a little while longer (stay a little while longer)
we can work it out
(Baby)
Don't leave (We gonna work it out)
stay a little while longer (stay a little while longer)
we can work it out

Stay a little while longer (stay)
Don't leave
we can work it out
Stay a little while longer (stay a little while longer)
don't leave
we can work it out
stay a little while longer
(i'm gonna make it up to you)
don't leave
we can work it out
Stay a little while longer
(i need you stay)
Stay a little while longer
(its gonna be alright)
(if you love me)
stay a little while longer
(stay don't go, don't go no no)
stay a little while longer
