So where do we go from here  
Now that we're lost?  
So heavenly, yet so near  
But still it got lost

This is the last time  
This is the last time  
This is the last time  
I'm coming back to you

It's really the last time  
So faithfully hanging on to a fading dream  
So why don't we just hang on?  
Our last hope it seems

This is the last time  
This is the last time  
This is the last time  
I'm coming back to you

It's really the last time  
What's it gonna be?  
Tell me, what's it gonna be?  
What's it gonna be?

It's up to you, baby  
This is the last time  
So what's it gonna be?  
This is the last time

This is the last time  
I'm coming back to you  
It's really the last time  
So where do we go, my dear?
