Uh huh
Oh yeah, oh yeah

Once out of love there's no way back in
We made love out of nothin'

And give it a minute
Give me anything
Cause what's sliding out of something

Uh huh
Oh yeah, oh yeah

Once it's growing you will wonder how
Your heart it started beatin'

Well 'lest it's over
You will do anything
Work through fire from the feeling

And honey
We made love for nothin'
We just let it in and closed the door
And turned a little of it into somethin'
We was drinking sweetness off the floor
And made love out of nothin for somethin' more

Oh yeah, oh yeah
Oh yeah, oh yeah

Once out of love there's no way back in
I was taking you for none
I wanna surprise maybe a compromise
Let me once stay in this town

And honey
We made love for nothin'
We just let it in and closed the door
And turned a little of it into somethin'
We was drinking sweetness off the floor
And made love out of nothin for somethin' more

(Love love love) out of nothing
(Love love love) out of nothing
(Love love love) out of nothing
(Love love love) out of nothing
(Love love love) out of nothing
(Love love love) out of nothing

And honey
We made love for nothin'
We just let it in and closed the door
And turned a little of it into somethin'
We was drinking sweetness off the floor
Cause made love for nothin'
Cause made love for nothin'
And made love out of nothing' for something more
And made love out of nothing' forever more
