I can see he says what he means  
I can't say what he means when he says that  
I'll pretend I'll pretty pretend  
When all I wanna see is the end of this

I can see he says what he means  
We'll bring him sticks and stones and apologies  
I wish  
I wish it was through

Split the scars  
Get up off your knees  
Just lift the marks  
To new-found kinesis  
I'll pretend a pretty pretend  
When all I wanna see is the end of this

I wish  
I wish  
I wish the cobwebs would cover me  
Cover me  
Cover me

My vicious tongue  
Cradles just one
