A glass, a view, a mirror
Which one distracts
Like open windows
In the gusts

A calm day will come
A calm day will come

This dream is
This dream is
This dream is
In a telescope now
This dream is
This dream is

Fever in bedtime covers
Go unknown
This fright
It grows
And misses
Sinks and floats

A calm day will come
My calm day will

This dream is
This dream is
This dream is (over)
In a telescope now
This dream is (over)
This dream is

A calm day will come

Fever
In bedtime covers
Go unknown

Until two eyes out
Of the darkness
Bring hope close

This childish
Heart won't wait
It dances
Keeps me awake
To think on
To think on
You're the greatest light
The greatest shade
It means that
I can be happy for you
Happy for you
Happy for you
Happy for you
Happy for you
Happy for you
Happy for you
