Don't be afraid to hold me tight  
You know I won't break in two  
What we're doin' here tonight  
Sure beats what we're goin' through

We've both loved and lost before  
You know the sadness it can bring  
Tonight let's close the door  
And hold on to the nearest thing

Chorus  
Let's keep hangin' on  
So we won't fall apart  
Let's make love tonight  
Like we never had a broken heart

Don't be afraid to close your eyes  
Pretend I'm someone that you love  
And I won't have to tell you like  
'Cause it's not you I'm thinkin' of

Repeat Chorus

Tonight we'll just pretend  
We've been in love right from the start  
Let's make love again  
Like we never had a broken heart  
Let's make love again  
Like we never had a broken heart  
Don't be afraid to close your eyes
