I can see you turn away  
When I ask what for  
You say it isn't anything  
But I'm not sure  
Something underneath the skin  
Won't let you be  
And you try to keep it in  
But I can see.

The woman before me  
Must have been hard on you  
'Cause that hurt in your eyes  
I never put you through  
Sometimes I think you must be talkin' to  
The woman before me and you.

Sometimes in an argument  
It will show  
When you go a little farther than  
You meant to go  
I know you don't mean the things  
That you say  
I just wanna ease the pain  
That's in your way.

The woman before me  
Must have been hard on you  
'Cause that hurt in your eyes  
I never put you through  
Sometimes I think you must be talkin' to  
The woman before me and you.

If there are sorrows that bring back a tear  
Don't let them keep us apart  
You ought to know you've got nothing to fear  
Here in my heart  
'Cause you and I will never be  
Like the past  
Whatever kind of memories  
That you have  
Nothin's gonna hurt you now

Can't you see  
I already made a vow  
That I can keep

The woman before me  
Must have been hard on you  
'Cause that hurt in your eyes  
I never put you through  
Sometimes I think you must be talkin' to  
The woman before me and you.

Sometimes I think you must be talkin' to  
The woman before me and you.
