It was a hot summer night and the beach was burning

There was a fog crawling over the sand

When I listen to your heart I hear the whole world
turning

I see the shooting stars

Falling through your trembling hands

You were licking your lips and your lipstick shining

I was dying just to ask for a taste

We were lying together in a silver lining

By the light of the moon

You know there's not another moment to waste

Not another moment

Not another moment to waste

You hold me so close that my knees grow weak

But my soul is flying high above the ground

I'm trying to speak but no matter what I do

I just can't seem to make any sound

And then you took the words right out of my mouth

Oh-it must have been while you were kissing me

You took the words right out of my mouth

And I swear it's true

I was just about to say I love you

And then you took the words right out of my mouth

Oh-it must have been while you were kissing me

You took the words right out of my mouth

And I swear it's true

I was just about to say I love you

Now my body is shaking like a wave on the water

And I guess that I'm beginning to grin

Oooh, we're finally alone and we can do what we want
to

The night is young

And ain't no one gonna know where

No one gonna know where

No one's gonna know where you've been

You were licking your lips and your lipstick shining

I was dying just to ask for a taste

We were lying together in a silver lining

By the light of the moon

You know there's not another moment to waste

Not another moment

Not another moment to waste

And then you took the words right out of my mouth

Oh-it must have been while you were kissing me

You took the words right out of my mouth

And I swear it's true

I was just about to say I love you

And then you took the words right out of my mouth

Oh-it must have been while you were kissing me

You took the words right out of my mouth

And I swear it's true

I was just about to say I love you
