"Two Two Three"

Baby I can't win your favours
I can't gat you high
But I would love to taste your honey
Lick it let me try

Wanna suck you up inside
And lubricate your wheels
Jump on while my engine's running
See how good it feels

(Chorus)
Making love, always making love
Making love, always making love
Making love, making sweet love
Making love, always making love

I don't want you to love me
I don't want you to care
I don't want you to seek my heart
Just let me touch you there

Standing there all soft and sultry
Hands upon your hips
Let me come inside you baby
You've got so many lips

Repeat chorus
