This is the message
This is the message on air
This is the message
This is the message on air

This is the message on air
Don't touch the dull is it clear
Coming from the cosmic streets
And feel the beat anytime it's not wrong
As the rhythm right - you don't decide
Just shake your hips from side to side
Somebody on the floor said more
Come on! Let's lay down the law
Never change your course. Move your body all around
It's catchy sound and we've got it going down
Relax your mind and sing your song
We gotta going on up and now don't you know
Let it go, go, go, go !

This is the message on air
The message on air
Oh I'm gliding on my mind
This is the message on air
The message on air
And tonight I'll make you mine
Now I feel such a chill
And you know just what to do to make it real
You want me, come to me
And you all you have to do is set your spirit free
This is the message on air

This is the message on air
Don't touch the dull is it clear
Coming from the cosmic streets
And feel the beat anytime it's not wrong
As the rhythm right - you don't decide
Just shake your hips from side to side
Somebody on the floor said more
Come on! Let's lay down the law
Never change your course. Move your body all around
It's catchy sound and we've got it going down

Relax your mind and sing your song
We gotta going on up and now don't you know
Let it go, go, go, go !
