John Lodge)

Make me the captain of your Pirate Ship

Paint all the clouds the colour of "no"

Drift on the warm wind of your secret world

Hang on to your Starstream

Make the sun reappear

Make the dark disappear

>From my night sky

Fly away

Fly away

Carry me, carry me

Carry me, carry me

Show me your island of a thousand names

Washed by the tide of time gone by

High on your mountain we can share the view

There for a short while

In the corner of an eye

Is a dream passing by

In my night sky

Fly away

Fly away

Carry me, carry me

Carry me, carry me

Would you believe me

Would you believe when I tell you

Would you believe me

Would you believe when I tell you

All the dreams you found are mine

Carry me, carry me

Still is the new day as the dawn unfolds

Gone is the "White Horse" that carried us home

Lost to the morning all your deepest fears

Watched over safely

By the words of a prayer

And the love that we share

In our night sky

Fly away

Fly away

Carry me, carry me (Repeat and fade)
