I'm a soul-dier
And I fight fight fight fight fight
And I fight for my rights
And my music's my own right
And my love's in you

Night is over
Don't you lie lie lie lie lie
Don't you lie about your life?
Gotta live, don't look behind
Gonna fight for you

No need to tell you
I know that you can feel me

I'm king in my life
And my music is my life
So I fight fight fight fight fight
And I fight for my love
Just for you

I'm king in my life
And my music's my own right
So I fight fight fight fight fight
And I fight for my lord
And my music is my gift for you

I'm a soul-dier And I fight fight fight fight fight
And I try to keep the faith
Bleeding everyday I pray Lord and I thank you

I'm king in my life
And my music is my life
So I fight fight fight fight fight
And I fight for my love
Just for you

I'm king in my life
And my music's my own right
So I fight fight fight fight fight
And I fight for my lord

And my music is my gift for you

You will never ever feel so lonely 'cause you oughta
know

I'm your soul-dier

And my mind's you

And my love's you

And my soul's you

Is you

And I'll love you more and more oh yeah

I'm king in my life

And my music is my life

So I fight fight fight fight fight

And I fight for my love

Just for you

I'm king in my life

And my music's my own right

So I fight fight fight fight fight

And I fight for my lord

And my music is my gift for you

And I fight fight fight

And my music's my own right

And I fight for you (fight for you)

I'm soul-dier in my life

Within the limit of this time

I fight for you For you (and I fight fight fight and my
music's my own right and I fight for you)

Just for, just for you

I'm king in my life

And my music is my life

So I fight fight fight fight fight

And I fight for my love

Just for you

I'm king in my life

And my music's my own right

So I fight fight fight fight fight

And I fight for my lord

And my music is my gift for you

I'm king in my life

Just for you

And fight fight fight fight Fight for you
