

Titus Andronicus

"Universal Prayer"

Visit "[Universal Prayer](#)" on MotoLyrics.com

what what~ x3
nah nah nah nah~

[Verse 1]
i'm just the same as you
i could be the same age too
so do the same music you do
everyday

no matter what separates us
the same stars we see at night
no matter what's up against us
still gonna have dreams burning bright

i believe we fear what we dont know
we can be our own enemy
but if we conquer that
if you take my hand
i see a girl you see a man

[chorus]
everybody has the same dream
a dream in their heart
give a chance to make it right
love somebody they want
open your eyes we're all the same
we've all been scared
so lets sing together now
nah nah nah nah
in this universal prayer

what what~ x3
yeahhhh heyyyyy
nah nah nah nah

[Verse 2]
i see smoking lies
they complicate a simple life
i'm here and you are there
miles away

only that we do
is believe
that anything you want
you can reach
there's no limit to what we could be
so open your mind and set yourself free

i believe we fear what we dont know
we can be our own enemy
but if we conquer that
if you take my hand
i see a girl you see a man

[chorus]

and if you say that i'm naive
that i dont understand the world at all
you might be right but it seems to me
that we've come to far to fall
cos i believe that tears
are dried seeds that've sown
the harvest time will come
and all this pain will go
so try to understand
we're just grains of sand
every woman every man

[chorus]
