

Youth Ahead, The "Better Than Me"

Visit "[Better Than Me](#)" on MotoLyrics.com

Sometimes I gotta think that things will get better
When everything is falling down around me and
My life's a big ol pile of shit
I can't do anything right no more
Bad luck's my middle name, what's yours?
I bet it's doing better than me

Sometimes you gotta think that things will get better
When everything seems so hard at times
But when you're down, just think of me
You're probably nowhere near 23
Believe me when I say that you'll be fine
Cause you're probably doing better than me
You're probably doing better than me
You're probably doing better than me
You're probably doing better than me
