Am I a creep
Or am I just falling in love
With you again

Cause your eyes tell me
That it's so far from over
And I just can't sleep
Thinking of everything right with us
When only one thing that was pulling us apart

So close but then
We were always so far apart
What's on your mind?

Cause my heart tells me
That we should be this close forever
But my mind can't read
Everything that's going on
Going on inside your head

I don't wanna walk away
Cause I've messed up love before
I'm sorry...

Am I a creep
Or am I just falling in love
With you again

Cause your eyes tell me
That it's so far from over
And I just can't sleep
Thinking of everything right with us
When only one thing that was pulling us apart
