I was aiming for a new start
On my own, feeling strong, ready to go, ready to be on
top
Your love left an echo in my heart
Was it real, could it be you're just a dream about to part
If I go, will I move forward
If I go, will I be all right
I can't go not knowing, not being sure
Standing at your door

For better and for worse
Say you let me in
I just wanna feel you, baby
For better and for worse
Close against my skin
I just wanna love you, love you, love you, love you

Overwhelmed by everything you've shown
A little bruised, still confused, but ready to go into the
unknown
Letting go of the heavy storm
All that grey, yesterday, please tell I don't have to do it
on my own
If I go, will I move forward
If I go, will I be all right
If I go, will you come with me
I am yours to be

For better and for worse
Say you let me in
I just wanna feel you, baby
For better and for worse
Close against my skin
I just wanna love you, love you, love you. love you

There's no point in looking back
It's nothing there to see
If you want this time to last
Just be here and love me

(For better and for worse)

Say you let me in
I just wanna feel you, baby
For better and for worse
Close against my skin
I just wanna love you, love you

For better and for worse
Say you let me in
I just wanna feel you, baby
For better and for worse
Close against my skin
I just wanna love you, love you, love you, love you
