[Godilla] The sky turn black no turning back My words
on tracks will burn you cats Lion den bred you a Persian
cat Spit off the hook quicker than a purse get snatched
Verse worth a stack, nah homie I'm priceless Leave you
spineless and lifeless inside my ciphers Hip-Hop got no
feeling like robotic devices Counter act that crisis
writing that hype shit Born lefty yet the god known to
get righteous Push come to shove then I'll kill a man
like I'm Cypress Rock cocaine flow many grams of that
white shit Play it cool and calm and any minute he
might flip Shine bright enough critics shutting they
eyelids Family business so ya know we keeping a tight
knit Constellations shift and the planet will burn Live my
raps promise I'm a man of my word Put ya in the earth
either that your fam's in a urn Make classics still find
time to stand on the curb This man is absurd crazy like
victor von doom Liquid maneuvers, ninja spit a
monsoon Imagine anime compared to children
cartoons That's no ventilation while breathing car
fumes Kill ya self cock sucker forgetting your honor
Overload overpower all you smelled was gun powder
[Lone Ninja] Bring carnage and terror your squadron's
bombarded With pressure I'm harshest In forest and
desert The sergeant will sever Your head from your
body I spar with contenders beware of the volley You
can never stop the violence I won the brawl Shoot your
helicopter pilot you plunge and fall I've come for war I'll
slay at Armageddon Thunder roars I'll maim and harm
your brethren Spear, knife and axe fear my attack On
your dear life you're snared by the traps We're fighting
back when it's time to retaliate I'm climbing the alley's
gate I find and decapitate The treacherous traitors
they're slaughtered at will It's death to invaders they're
tortured and killed Fought for the thrills remembered
foes deceits You're caught in the hills surrender, no
retreat Lethal weapon, you seek to ease the tension
fleets is threatened, defeat you evil henchman So cold
hearted I sunk your battle ship No holds barred kid I
punch with shadow fist You're struck with arrow tip and
left for dead You wept in dread I sever you beggars
bled You're soft, nervous and known to fold When toe

to toe you short circuit and overload
