and we all play the stars like a letter of sin  
wishing for a better life a new chance to begin and end  
this congregation of the last cold war survivor  
take the view and hold my wrist for life  
you can spill me back where i..

two parts gasolina  
one part sympathia  
i have been fooled  
but i can never fool myself

this is the voice i have to make  
i cant believe your gone  
(so say it again x2)  
in my head and in my heart again

this is the price i have to pay  
i cant believe your gone  
(so say it again x2)  
in my head and in my heart again

OH!

and the windows look like eyes ( i could)  
see them all standing like me ( look at me)

cha cha cha  
cha cha cha

..cut her a new way  
this is the part where i become a broken boy  
but I'm screaming in your fucking head this time  
you could not ignore me and i can not ignore you  
but we both know where this is going this is going down

two parts gasolina  
one part sympathia  
i have been fooled  
but i can never fool myself

this is the price i have to pay

i cant believe your gone  
(so say it again x2)  
in my head and in my heart again

this is the voice i have to make  
i cant believe your gone  
so say it again x2  
in my head and in my heart again

this is my fucking heart

two parts gasalina  
one part sympathia  
i have been fooled  
I am i am i am no fool

this is the voice i have to make  
i cant believe your gone  
(so say it again x2)  
in my head and in my heart again

this is the voice i have to make  
i cant believe your gone  
(so say it again x2)  
in my head in my head
