Ah ah ahh ahh
Ah ahh ahh ahh ooo ooo

Lie awake at night
Bathing in street light
I'd love to move beyond
But my love for you is too strong
I can't leave the radio on
Cause every single song
Is another song about you
And everything I'm goin through
But sometimes I leave the light on
Now that you're gone

Now from time to time
I see you pass me by
But it's just a stranger's face
that make me do a double take
It's like your always on my mind
So I pray to the devine
That she lets me hit rewind
So that I can see you one more time
Cause sometimes I leave the light on
Now that you're gone

And it's all that I can do
Is keeping on missing you
And I know that you're never comin back
Yes someday I will accept that
But I love you still
And I always will
I know it in my mind
But my heart's two steps behind

Ahh ahh ahh ahh
Ahh ahh ahhh ahhh

Long and lonely nights
Turn to long and lonely days
Cause I let you slip away
When I had so much more to say

Like an old school track
I'm playin conversations back
And these pages just can't be turned
As long as my hearts yearning for you
Sometimes I leave the light on
Now that you're gone

And it's all that I can do
Is keeping on missing you
And I know that you're never comin back
Yes someday I will accept that
But I love you still
And I always will
I know it in my mind
But my heart's two steps

And it's all that I can do
Is keeping on missing you
And I know that you're never comin back
Yes someday I will accept that
And I love you still
And I always will
I know it in my mind
But my heart's two steps behind

Ahh ahh ahh ahh
Ahh ahh ahh ahh (now that you're gone)
Ahh ahh ahh ahh (now that you're gone)
