No place on the other side  
Cause it is gone  
Everything is over  
Nothing can be done

You cry in endless grief  
You die in endless pain  
Nothingness now you believe  
Nothing will be there again

This is the last time  
That we're here  
Death will engulf us  
The end is near  
No place on the other side  
Cause it is gone  
Everything is over  
Nothing can be done  
You cry in endless grief  
You die in endless pain  
Nothingness now you believe  
Nothing will be there again
