"Deep Isolation"

Visit "[Deep Isolation](#)" on MotoLyrics.com

Just among you is where I walk
In deep isolation and no one to talk
I stay alone I don't know anyone of you
For so long I've been here
But never I've been near
To anyone who lives here
Our worlds are not so different
But the connection does not exist
So we go back into loneliness
And we go on like this
Just among you is where I walk
In deep isolation
For so long I've been here but never I've been near
In deep isolation in deep isolation
Just among you is where I walk
In deep isolation and no one to talk
I stay alone I don't know anyone of you

For so long I've been here
But never I've been near
To anyone who lives here
Our worlds are not so different
But the connection does not exist
So we go back into loneliness
And we go on like this
Just among you is where I walk
In deep isolation
For so long I've been here but never I've been near
Deep isolation in deep isolation
In deep isolation
Our worlds are not so different
But the connection does not exist
So we go back into loneliness
And we go on like this
Into loneliness
And we go on like this
In deep isolation
