Never let you down boy
Never let you go
Your soul went to right
So easy and scary
So tell them that your here boy
Says at least she knows
When thoughts of her were dying
That leave me quite alone

It's like the universe has left me
Without a place to go
With I into light
To watch the movement glow
And our song is slowly starting
The memory felt so real
Burst against my will
With body bending chill in the night

I saw your ghost tonight
I know it felt so real
Your eyes they write on mine
The music starts to heal

You're in a hurry
Your eyes full of fear
My legs they buy a flurry
It's getting hot enough to hear
It's like the evidence is careful
Evidently clear
I'll never leave this dancefloor
I'll never leave you here

Tonight

I saw your ghost tonight
I know it felt so real
Your eyes they write on mine
My music starts to heal

I felt your ghost tonight
I fucking died it hurt like hell

To know your almost mine
The music's all I feel

Tonight

I saw your ghost tonight
It fucking hurt like hell
I felt you here tonight
If I drink will it all be real

I saw your ghost tonight
It fucking hurt like hell
I felt you here tonight
If I drink will it all be real
