Stop now, don't sleep so sound  
Don't speak cause I'm not listening  
But neither are you, so what does it matter?  
You messed up and it's messing up me too

I stay strong, that's one thing I know  
I will never let myself go

I've gotta get outta here outta here  
It's bringing me down, you're bringing me down  
What's done is left and said, but I want to know  
Out of the blue, what happened to you?

It's been a long cold road  
My eyes don't see a hero anymore  
So what's the use of trying?  
This past of ours is dying  
And now i'm gone without a hand and I'm so alone  
It's killing me, killing me  
And I don't know where to go

I stay strong, that's one thing I know  
I will never let myself go

I've gotta get outta here outta here  
It's bringing me down, you're bringing me down  
What's done is left and said, but I want to know  
Out of the blue, what happened to you?

I'm not afraid to admit that I miss the past  
and everything about you  
Something went wrong and now you're gone

I've gotta get outta here outta here  
It's bringing me down, you're bringing me down  
What's done is left and said, but I want to know  
Out of the blue, out of the blue

I've gotta get outta here outta here  
It's bringing me down, you're bringing me down  
What's done is left and said, but I want to know

Out of the blue, what happened to you?
