Take a breath before you speak your words out loud to
me

What you say, I just can't take your lack of sympathy
I've tried so hard to get you on my good side
Oh well, it looks like I failed like I do in your eyes

I am done shooting bullets at the sky
Trying to get you off my mind
And the war we left behind
Time is passing by
It's time to say goodnight
To the war we left behind

Bottled up all my thoughts and my fears of the past
times
Let it go down my throat, I've swallowed your poison
too many times
I've tried so hard to get you on my good side
Oh well, it looks like I failed like I did the first time

I am done shooting bullets at the sky
Trying to get you off my mind
And the war we left behind
Time is passing by
It's time to say goodnight
To the war we left behind

It's sad to see that we are not what we used to be
I don't want to be your enemy no more
You tried to shoot me down, thought I would lose the
fight
But I am made of dynamite right down to the core

I am done shooting bullets at the sky
Trying to get you off my mind
And the war we left behind
Time is passing by
It's time to say goodnight
To the war we left behind
