New York didn't do it for you
The prices, the vices, or some other excuse
California suited you well
It's just that nobody's real and the traffic is hell
When are you gonna tell the truth?
That it's you, that it's you that you're runnin' from?

I'll be right here waitin' for you
To take the place of the fear in you
I'll be right here when you're through
Gettin' lost in America

You got a place far from the coast
When you wake and you see you were already home
Before you started runnin', tryin' to find yourself
Anywhere but here

I'll be right here waitin' for you
To take the place of the fear in you
I'll be right here when you're through
Gettin' lost in America

I'll be right here waitin' for you
To take the place of the fear in you
I'll be here when you are through
Gettin' lost in America

No matter how far you go
You're right here
No matter how far you fall

I'll be right here when you're through
Gettin' lost in America
I'll be here when you are through
Gettin' lost in America
I'll be right here waitin' for you
Lost in America
