"Love Is"

Visit "[Love Is](#)" on MotoLyrics.com

love is something
that you cant explain
when it happens
ur wondering if your heart will hurt again
well no longer do i wonder
what my heart will go through
cuz love is...what i found with you..

love is a laughter that we share each day
its the way your heart will ache
when your love is far away
it may be the reason you do all you do
and love is what i found with you

chorus:
love is the feeling
of being held so tight
its the way you give your heart to someone else
its the way your lover looks at you
before you kiss goodnight
thats all you are
thats what love is...

love is the time
we spent throughout the years
its the way your lover comforts you
when you cried those tears..
its holding hands and talking like
all good lovers do
and love is what i found with you

chorus 2x

..thats what love is....
