Do you think you can bring our ship down  
I wanna see you bring it down right now  
Do you think you can bring our ship down  
I wanna see you bring it down right now  
Stop  
I'm at home  
All alone  
Turned off phones  
Who would of known  
Need to get out on the road  
Yes it's true that's what I do  
Have fun and mess with all of you  
Been long time  
Gonna even be longer  
Gettin' crazier, gettin' stronger  
For these times  
In my mind  
Hell a perfect cell  
I'm bored, adorned and horned  
Ready to screw anyone  
Who screws with me  
For sticking up for who I am  
And I am and I can  
Feel to spill the will to stand up  
In a time to go  
And steal the show  
From all of you  
I'm in the mood to ruin a melody  
Are you in the mood to ruin it along with me  
I'm in the mood to ruin a melody  
Are you in the mood to ruin it along with me  
(groundbreaking news report)  
(this just in, this just in)  
We erect buildings to hit airplanes  
Wanna get on page and help us rage  
Cut on through that other side  
Where we don't have to hide  
All is well, this perfect hell  
Life is time just running out  
Like this song  
Half your life gone  
How wrong is that

I'm in the mood to ruin a melody  
Are you in the mood to ruin it along with me  
I'm in the mood to ruin a melody  
Are you in the mood to ruin it along with me  
I come in and steal the show  
Turn around say told you so  
I come in and steal the show  
Turn around say told you so  
(I-need to)  
I'm in the mood to ruin a melody  
(you-need to)  
Are you in the mood to ruin it along with me  
I may need help to stay sane  
Insane whatever  
Let's get in my brain  
To explain the pain  
In my brain  
For being a loon  
With a toon  
Coming soon to  
A rock show near you  
What to do  
Help me  
You'll see  
Live life unstuck  
Have all the luck  
All the chance  
All the dreams  
None of this is what it seems  
Live your day  
Live your night  
Build your ship right  
Have fun  
With everyone  
Breathe in  
Breathe out  
Out of sight  
Every day and every night  
I'm in the mood to ruin a melody  
Are you in the mood to ruin it along with me  
I'm in the mood to ruin a melody  
Are you in the mood to ruin it along with me  
I come in and steal the show  
Turn around say told you so  
I come in and steal the show  
Turn around say told you so  
I come in and steal the show  
Turn around say told you so  
I come in and steal the show  
Turn around say told you so  
(I-need to)

I'm in the mood to ruin a melody  
(I-need to)  
Are you in the mood to ruin it along with me  
(you-need to)  
I'm in the mood to ruin this melody  
(you-need to)  
Are you in the mood to ruin it along with me  
Do you think you can bring our ship down  
Do you think you can bring our ship down  
I wanna see you bring it down right now  
Let's ruin this melody  
Do you think you can bring our ship down  
I wanna see you bring it down right now  
Bring it down right now
