(just two and four)

It's always strange the way the rain can change the day
It's always strange the way the rain can change the day
It's always strange the way the rain can change the day
Change
It's always strange the way the rain can change the day
Who's to say just coz it rains we can't go out and play
And who's to say and who' to say

Every boy and girl should be happy
Every girl and boy should be sad
I think they should experience everything
Then everything will be what they have
Happy, bored, sad
The sky is so pale and gray
But all in all, just a rainy day
And who's to say
Who's to say just coz it rains we can't go out and play
Happy, bored, sad

Who's to say just coz it rains we can't go out and play
Anb who's to say and who's to say
Who's to say just coz it rains we can't go out and play
Anb who's to say and who's to say
Go out and play
