### **"Be/cause"**

Visit "[Be/cause](#)" on MotoLyrics.com

If you can enver see, then when are you gonna bother?  
Im trying to be/cause we all gotta live here  
When you gonna learn, that people arent your problem  
Just step back and breathe, and live a little longer.  
(You ask) How can i stay calm?  
Well i may not live forever but i wont throw it all away  
And i might not live for ever or even make to the next  
day  
yeah  
I might not live forever but i wont give in...  
A Friend said to me, why do people because?  
When they could just be  
And stop becausing  
(you say) Well whats the worth of knowing? But you  
never stop to ponder  
that you could learn to be, cause we all gotta live here.  
(You ask) How can i stay calm,(when) ill stay calm
