Dig deep down from Planet X, yeah

Thirteen ghosts in the devil's head

Step right up and feel the fire

Hardcore love of the never dead

Call me the American nightmare

Call me the American dream

Call me your soul corrupted

Call me everything you need

Yeah, motherfucker

Yeah, who do you love

Yeah, motherfucker

Who do you love, yeah

Black boots stomp and penetrate, yeah

Lust and death gone in your head

Rat pack mind degenerated

Thirteen ghosts sing the body red

Call me the dark intruder

Call me the haunted sea

Call me your Monster Zero

Call me anything you need

Call me the American Nightmare

Call me the American dream
Call me your soul corrupted
Call me everything you need
Yeah, motherfucker
Yeah, who do you love
Yeah, motherfucker
Who do you love, yeah
Call me the American Nightmare
Call me the American dream
Call me your soul corrupted
Call me everything you need
Yeah, motherfucker
Yeah, who do you love
Yeah, motherfucker
Who do you love, yeah
Yeah, motherfucker
Yeah, who do you love
Yeah, motherfucker
Who do you love, yeah
