Great white eyes
Bleed away the
Trembling sound
No more time
Body spasm deep
And passing
Acid flesh
Human river stepping
Stones of
Love and death
A living legend's legacy yeah!
Hustler of the dead
Revolution steals the world
And turns the sky to red
Home sweet hellhole to the
Last man on earth
See what the face of evil
Is truly worth yeah!
Turn your eyes
To the sky
A corpse of blue

Night is time
Growing strong
With every moment
Acid flesh
Chaos pulsing
In my viens yeah!
Hell house temptation
Walk on to salvation
Cold steel-pain trust
Hot blood-forever lust
Raw horror make cheap thrills
Twitch the nerve get your fill
Razor make clean cut
River red so what
Gut twisting holiday
Skin dripping pay to play
Stain is blood
Without a doubt
Godslayer action
Eye to fist
Fist to eye
Dig the war anyway
Killing time
Killing time
Bending cracks up

In my mind

Bite down

Bite down

Money burns

In my hands

I can't seem to

Get enough

Hammerhead

Says to you

Love is the one

Thing money can buy

Bite down

Bite down

Down

Down
